

A recognized leader in women's health

AT A GLANCE:

- Teva Women's Health is headquartered in Woodcliff Lake, NJ, with manufacturing facilities in Cincinnati, OH.
- Teva Women's Health employs more than 400 people.
- Teva Women's Health currently offers FDA-approved, innovative products in the areas of emergency contraception, planned contraception and estrogen therapy to health care providers and patients.
- Teva Women's Health created the Emergency Contraceptive category.
- Teva Women's Health created the extended-regimen contraceptive category.
- Teva Women's Health is a brand division of Teva Pharmaceuticals, the largest manufacturer of branded and generic pharmaceuticals as measured by the number of prescriptions filled. In fact, one in six prescriptions filled in the United States is a Teva product; one in four is a Teva generic product.

WOMEN'S HEALTH PRODUCTS

Our vision for Teva Women's Health is to be recognized as an ally to women and their healthcare practitioners and as the company that consistently delivers important and much-needed products that positively impact the lives of women who use them, every day.

Teva Women's Health makes a significant impact on women's lives and is an unparalleled player in the women's health industry with 25 products on the market.

Teva Women's Health maintains patient assistance programs for Seasonique®, LoSeasonique®, ParaGard® and Enjuvia® to help women gain access to these products upon meeting the plan eligibility criteria.

Teva Women's Health product portfolio includes:

- **Plan B® One-Step** (emergency contraception)
- **Seasonique® and LoSeasonique®** (extended regimen contraception)
- **ParaGard®** (non-hormonal intrauterine contraceptive)
- **Enjuvia®** (oral estrogen for treatment of menopause symptoms).
